ADAMANT WHITEPAPER

May 30, 2021

Adamant Network

OVERVIEW

There are more than 5 million people with Alzheimer's disease in the United States and 35 million worldwide. These numbers are expected to skyrocket to a projected 13.8 million and 115 million, respectively, by midcentury.

The potential of earlier diagnosis and the development of better treatments may significantly change the experience of Alzheimer's for millions of people.

In the meantime, the cost of care will rise dramatically.

OUR VISION

A world without Alzheimer's and all other dementia.

CONSUMER FOCUS

We seek to understand, learn from and meet the needs of individuals with Alzheimer's disease, their families and caregivers.

OUR MISSION

To eliminate Alzheimer's disease through the advancement of research; to provide and enhance care and support for all affected; and to reduce the risk of dementia through the promotion of brain health.

ACCOUNTABILITY

We keep our commitments and make measurable progress to achieve our mission. As our journey progresses, we hope to add many more relevant organizations to our donation portfolio.

INTEGRITY

We assure and maintain transparency in our relationships with each other and with our various constituencies.

SUPPORT

We are here to change the trajectory of Alzheimer's and to support people living with the disease today and in the future.
